Art Unit: 1619

(1) The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

(2) Claims 70-129, 131-133, 135-137, and 139-141 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "in an amount, at a frequency, and for a duration effective to eliminate said asthma and said non-invasive fungus-induced rhinosinusitis" is indefinite in the context employed because (I) it is relative; and (ii) the phrase is neither specified in the specification, nor would it be apparent to one of ordinary skill in the art. As a result, the metes and bounds of the patent protection desired would be unascertainable.

Applicant's arguments filed on 12-27-00 have been fully considered but they are not persuasive.

It is Examiner's position that the above phrase does not meet the threshold requirement of clarity and precision and are not in compliance for definiteness of 35 U.S.C. 112, second paragraph. Note that definiteness of the claims is important to allow others who wish to enter the marketplace to ascertain the boundaries of protection that are provided by the claims (*Ex parte Kristensen* 10 USPQ2d 1701, 1703).

(3) Claims of this application conflict with claims of Application Nos. 09/177,273;; 09/177,164; 09/177,165; 09/176,990; and 09/177,659. 37 CFR 1.78(b) provides that when two or more applications filed by the same applicant contain conflicting claims, elimination of such

Art Unit: 1619

claims from all but one application may be required in the absence of good and sufficient reason for their retention during pendency in more than one application. Applicant is required to either cancel the conflicting claims from all but one application or maintain a clear line of demarcation between the applications. See MPEP § 822.

(4) **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
